Dear Ruth and Charles....

Enclosed photos do not do justice to the ground-breaking on Friday. We wouldn't have missed it for the world.

The entire afternoon was filled with memories as we recalled the various roles those in attendance had played in making Arcadia such a great City. Without the glue of community leaders who really cared about their home town it would not have evolved the way it has. You have been vital in the whole process.

One of the big surprises of the afternoon was our conversation with Dick Cooper. I had not made the connection that he was an area superintendent of LAUSD at the critical time of the LA riots. His wife (mary?) who was Mary Dearden's dear friend was a childhood friend of Dr. Claire Fulcher who was Dean of Women at University in Conn. when I was her assistant. She now holds the permanent chair for women's issues internationally at the UN. Rob chides me about my "liberal" friends but to no avail.

We had never met Bill Kelly until Friday. Three years ago, Andrew had him as a professor in the grad program at Cal State Long Beach. He said he was an excellent instructor. It was interest-timing that we met him at your reception.

The primary was filled with inconsistencies. I do not think McCain will pass softly into the night. There is a wonderful quote ...DAMAGED PEOPLE ARE DANGEROUS BECAUSE THEY KNOW THEY CAN SURVIVE. Anyone involved in political campaigns knows this is true. We have always believed that campaigns are WAR and the residue does not simply vanish. Humans that we are.....

March 3rd was a GOOD day!

Again thank you for honoring us with an invitation...

When we count our blessings, you are among them.....

Love,

Ann
